

EXPERT CONTACT LIST

LEADERSHIP

Lisa Gonzalez

President and Chief Executive Officer

281-364-6044

lgonzalez@HARCresearch.org

Areas of expertise:

Resilience, Sustainability, Water, Coastal ecology, Invasive species, Environmental management, Comparative Risk Assessment, Data analysis, Wetland and flood mitigation, Urban watersheds

Mustapha Beydoun, PhD

Vice President and Chief Operating Officer

281-364-6046

mbeydoun@HARCresearch.org

Areas of expertise:

Air quality, Vehicle emissions, Industrial development, Regulations and compliance, Urban planning and growth management

RESEARCHERS

Marina Badoian-Kriticos

Research Scientist, Energy and Natural Resource Policy

281-364-6033

mkriticos@HARCresearch.org

Areas of expertise:

Resilience, Sustainability, Energy, Water, Policy, Local government, PACE (Property Assessed Clean Energy), Combined Heat and Power (CHP), Climate Action, Built and physical environments, Strategic Planning, and Transportation

Ryan Bare, PhD

Postdoctoral Research Scientist, Watershed Ecology

281-364-6050

rbare@HARCresearch.org

Areas of expertise:

Water quality, Ecosystem and natural resource management, Watershed management, Sustainable development, Watershed ecology, Data science, Nature based infrastructure

Gavin Dillingham, PhD

Program Director, Clean Energy Policy

281-364-6045

gdillingham@HARCresearch.org

Areas of expertise:

Energy and climate policy analysis and design, Policy planning, Predictive modeling for policy/technology diffusion and adoption, Resilience planning, Climate action planning, Strategic planning, Strategic energy management, Grant writing

Ebrahim Eslami, PhD

Postdoctoral Research Scientist

281-364-6049

eeslami@HARCresearch.org

Areas of expertise:

Machine learning methods in the field of environmental science, Advanced environmental data analysis, Numerical models for air quality and weather forecasting system; Health and ecological impacts of air pollution and climate change

Carlos Gamarra, PE

Research Associate, Clean Energy Technology

281-364-6032

cgamarra@HARCresearch.org

Areas of expertise:

Energy Systems and Infrastructure Planning, Clean energy technologies, Combined Heat and Power (CHP), and Microgrids from single-building to district size facilities, R&D Project development and project management, Modeling, optimization, and simulation, Resilience, Energy efficiency and Energy management for industrial, commercial and residential facilities

Stephanie Glenn, PhD

Program Director, Hydrology and Watersheds

281-364-6042

sglenn@HARCresearch.org

Areas of expertise:

Sustainable watershed management, Water resources, Surface water quality and quantity, Groundwater quality and quantity, Forest ecology, Environmental science

Meredith Jennings, PhD

Postdoctoral Research Scientist, Community and Climate Resilience

281-364-6034

mjennings@HARCresearch.org

Areas of expertise:

Climate change and health, Science policy, Marine carbon cycle, Chemical oceanography, Marine biogeochemistry

Erin Kinney, PhD

Research Scientist, Coastal Ecology

281-364-6040

ekinney@HARCresearch.org

Areas of expertise:

Biology, Marine biology, Coastal ecology, Wetland ecology, Estuary ecology, Coastal ecology, Wetland biogeochemistry

McKenzie Roberts

Research Assitant, Energy and Sustainability

281-364-6048

mroberts@HARCresearch.org

Areas of expertise:

Resilience, Sustainability, Energy, Combined Heat and Power (CHP), Data Collection and Analysis, Geospatial, Comparative Risk Assessment, Atmospheric Profiling

Andra Wilcox, PMP

Research Scientist, Energy and Sustainability

281-364-6036

awilcox@HARCresearch.org

Areas of expertise:

Energy development, Project management, Stakeholder engagement, Community outreach, Sustainability in energy development processes, Product stewardship, Waste minimization

GEOSPATIAL & ANALYTICS

Bill Bass, GISP

Geospatial and Analytics, Senior Manager

281-364-6087

bbass@HARCresearch.org

Areas of expertise:

Geospatial technologies, Analytics, Geographic Information Systems (GIS), Database architecture, Data development methodologies, Geographic analysis, Cartography, Aerial imagery, LiDAR, Land use and land cover, Natural hazards research and risk communication

Likun Chen

Geospatial and IT
Analytics

281-364-6086

lchen@HARCresearch.org

Areas of expertise:

Front-end and back-end web development, Data visualization, Database architecture, Technical architecture, Geomorphology

Qian Song

GIS Administrator

281-364-6085

qsong@HARCresearch.org

Areas of expertise:

Geospatial technologies, Analytics, Geographic Information Systems (GIS), Data visualization, Geographic analysis, Cartography, Tree canopy analysis, LiDAR, Coastal ocean numerical modeling
