Independent Auditors' Report

To the Board of Directors of Houston Advanced Research Center:

Report on the Financial Statements

We have audited the accompanying financial statements of Houston Advanced Research Center, which comprise the consolidated statements of financial position as of December 31, 2019 and 2018 and the related consolidated statements of activities, of functional expenses, and of cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Houston Advanced Research Center as of December 31, 2019 and 2018 and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary information included in the schedule of expenditures of federal awards for the year ended December 31, 2019 as required by Title 2 U. S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Report Required by Government Auditing Standards

Blazek & Vetterling

In accordance with Government Auditing Standards, we have also issued our report dated June 3, 2020 on our consideration of Houston Advanced Research Center's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Houston Advanced Research Center's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Houston Advanced Research Center's internal control over financial reporting and compliance.

Notes to Consolidated Financial Statements for the years ended December 31, 2019 and 2018

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

<u>Organization</u> – Houston Advanced Research Center (the Center), a Texas nonprofit corporation, is a research hub providing independent analysis on energy, air and water issues to people seeking scientific answers. Major research interests are in the areas of the environment, energy, and policy analysis. The primary source of funding is research grants and contracts from both public and private sources. Philanthropic support provides funds for internal research and for expenditures not recovered from sponsored research activities.

HARC Technology, Inc. (HTI) is a wholly-owned subsidiary of the Center formed for the purpose of facilitating the transfer of promising technologies from the laboratory to the private sector.

<u>Basis of consolidation</u> – These consolidated financial statements include the assets, liabilities, net assets and activities of the Center and HTI (collectively HARC). All significant intercompany balances and transactions have been eliminated in consolidation.

<u>Federal income tax status</u> – The Center is exempt from federal income tax under §501(c)(3) of the Internal Revenue Code and is classified as a public charity under §509(a)(2).

Government grants and contributions receivable that are expected to be collected within one year are reported at net realizable value. Amounts expected to be collected in more than one year are discounted to estimate the present value of future cash flows, if material. At December 31, 2019, all government grants and contributions receivable are expected to be collected within one year.

<u>Property</u> is reported at cost, if purchased, or at fair value at the date of gift, if donated. Additions and improvements with a cost of more than \$5,000 are capitalized. Depreciation is provided using the straight-line method over estimated useful lives of 3 to 5 years for furniture and equipment and 10 to 31 ½ years for building and improvements.

<u>Net asset classification</u> – Net assets, revenue, gains, and losses are classified based on the existence or absence of donor-imposed restrictions, as follows:

- *Net assets without donor restrictions* are not subject to donor-imposed restrictions even though their use may be limited in other respects such as by contract or board designation.
- Net assets with donor restrictions are subject to donor-imposed restrictions. Restrictions may be temporary in nature, such as those that will be met by the passage of time or use for a purpose specified by the donor, or may be perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Net assets are released from restrictions when the stipulated time has elapsed, or purpose has been fulfilled, or both. Contributions of long-lived assets and of assets restricted for acquisition of long-lived assets are released when those assets are placed in service.

<u>Contributions</u> are recognized as revenue at fair value when an unconditional commitment is received from the donor. Contributions received with donor stipulations that limit their use are classified as *net assets with donor restrictions*. Conditional contributions are subject to one or more barriers that must be

overcome before the organization is entitled to receive or retain funding. Conditional contributions are recognized as revenue at fair value when conditions have been met. During 2019, HARC received \$2,000,000 in contributions from one donor, which represents 51% of total revenue. During 2018, HARC received \$2,550,000 in contributions from one donor, which represents 53% of total revenue.

Research contracts – Revenue is recognized over time as performance obligations are met using the input method based on the labor hours expended and third-party costs incurred. Accounts receivable represent contract payments due for completed performance obligations. Payments collected but not yet recognized as revenue result in a contract liability and are reported as deferred revenue. At December 31, 2019, 2018 and 2017, deferred revenue for research contracts were \$47,719, \$0 and \$32,573, respectively.

<u>Functional allocation of expenses</u> – Expenses are reported by their functional classification. Program services are the direct conduct or supervision of activities that fulfill the purposes for which the organization exists. Fundraising activities include the solicitation of contributions of money, securities, materials, facilities, other assets, and time. Management and general activities are not directly identifiable with specific program or fundraising activities. Expenses that are attributable to more than one activity are allocated among the activities benefitted. Salaries and related costs are allocated on the basis of estimated time and effort expended. Depreciation and interest expenses are allocated based on square footage.

<u>Estimates</u> – Management must make estimates and assumptions to prepare financial statements in accordance with generally accepted accounting principles. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, the amounts reported as revenue and expenses, and the allocation of expenses among various functions. Actual results could vary from the estimates that were used.

NOTE 2 – ADOPTION OF ACCOUNTING STANDARDS UPDATES

Effective January 1, 2018, HARC adopted Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This ASU and all subsequently clarifying ASU's replaced most existing revenue recognition guidance in generally accepted accounting principles. The ASU also required expanded disclosures related to the nature, amount, timing and uncertainty of revenue and cash flows from contracts with customers.

Effective January 1, 2018, HARC also adopted ASU 2018-08, *Not-for-Profit Entities (Topic 958): Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made.* The amendments in this ASU clarify and improve current guidance about whether a transfer of assets (or the reduction, settlement, or cancellation of liabilities) is a contribution or an exchange transaction and provide additional guidance on determining whether a contribution is conditional or unconditional.

These amendments have been applied on a retrospective basis to the financial statements for the year ended December 31, 2018. Adoption of these standards resulted in reclassifications of previously reported activities to conform to the 2019 presentation but had no impact on total net assets or total changes in net assets in 2018.

NOTE 3 – LIQUIDITY AND AVAILABILITY OF RESOURCES

Total financial assets available to meet general expenditures over the next 12 months comprise the following:

	<u>2019</u>	<u>2018</u>
Financial assets:		
Cash	\$ 222,633	\$ 155,496
Accounts receivable	37,277	92,883
Government grants receivable	119,878	174,331
Contributions receivable	 	 271,620
Total financial assets	379,788	694,330
Less financial assets not available for general expenditure:		
Donor-restricted assets subject to satisfaction of restriction	 (41,468)	 (152,729)
Total financial assets available for general expenditure	\$ 338,320	\$ 541,601

For purposes of analyzing resources available to meet general expenditures over a 12-month period, HARC considers all expenditures related to its ongoing programmatic activities, as well as the conduct of services undertaken to support these activities, to be general expenditures.

HARC regularly monitors liquidity in order to meet its operating needs and contractual commitments, while striving to minimize use of the annual unrestricted contribution received from an endowment fund with a similar mission. HARC's annual budget is based on expected general expenditures for the next 12-month period and management anticipates collecting sufficient revenue to fund general expenditures not funded by restricted resources.

NOTE 4 – PROPERTY

Property consists of the following:

	<u>2019</u>	<u>2018</u>
Land Building and improvements Furniture and equipment	\$ 829,376 7,065,560 908,362	\$ 829,376 7,065,560 986,647
Total property, at cost Accumulated depreciation	8,803,298 (1,495,832)	8,881,583 (1,213,277)
Property, net	<u>\$ 7,307,466</u>	<u>\$ 7,668,306</u>

NOTE 5 – NOTE PAYABLE

Note payable consists of the following:

A \$4,500,000 line of credit with a bank maturing in September 2020 for the construction of a building. The line bears an interest rate of		
LIBOR plus 1.4% (3.88% at December 31, 2019). The line of credit		
is secured by the building. Accrued interest is due monthly. The line of credit was repaid in full in January 2020.	\$ 3,854,010	\$ 4,079,010
Total note payable	\$ 3,854,010	\$ 4,079,010

2019

2018

Interest expense totaled approximately \$149,000 and \$144,000 in 2019 and 2018, respectively.

NOTE 6 – NET ASSETS WITH DONOR RESTRICTIONS

Net assets with donor restrictions are restricted as follows:

	<u>2019</u>	<u>2018</u>
Subject to expenditure for specified purpose:		
Tracking, Reporting and Innovation Methods in Identifying		
Litter in the Galveston Bay Watershed	\$ 228,777	
Additional senior researcher	188,700	
Development of Galveston Bay Report Card	100,156	\$ 295,202
Development of Region-Wide Science Information Network	67,923	
One Solution upgrades	41,468	41,468
Astrophysics Research	30,322	68,742
Building a sustainable future	24,399	,
City of Houston Climate Action Plan	,	254,378
Energy Efficiency and Resiliency program	 	 1,443
Total net assets with donor restrictions	\$ 681,745	\$ 661,233

NOTE 7 – GOVERNMENT GRANTS

Government grants includes the following:

	<u>2019</u>	<u>2018</u>
Federal grants: U. S. Department of Energy U. S. Environmental Protection Agency	\$ 931,832 133,789	\$ 802,591 162,779
Total federal grants	1,065,621	965,370
State grants	 37,415	 28,092
Total government grants	\$ 1,103,036	\$ 993,462

Government grants are recognized as contributions that are derived from cost-reimbursable federal and state contracts which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when HARC has incurred expenditures in compliance with specific contract provisions. HARC received cost-reimbursable grants of approximately \$1,100,000 that have not been recognized at December 31, 2019 because qualifying expenditures have not yet been incurred or the contracts stipulate these qualifying expenditures have not been approved by the government audit compliance officials as reimbursable amounts.

HARC's government grants require fulfillment of certain conditions as set forth in the grant contracts and are subject to review and audit by the awarding agencies. Such reviews and audits could result in the discovery of unallowable activities and unallowable costs. Consequently, any of the funding sources may, at their discretion, request reimbursement for expenses or return of funds as a result of non-compliance by HARC with the terms of the contracts. Management believes such disallowances, if any, would not be material to HARC's financial position or changes in net assets.

NOTE 8 – RETIREMENT PLAN

HARC has a tax-sheltered annuity plan (the Plan) established under §403(b) of the Internal Revenue Code. Under the terms of the Plan, HARC contributes a minimum of 5% of the participating employees' regular monthly salaries. In addition, HARC will match 1/2% for each percent the employee contributes up to 6%, for a maximum HARC contribution of 8% of regular salary. HARC contributed to the Plan approximately \$145,000 in 2019 and \$150,000 in 2018.

NOTE 9 – SUBSEQUENT EVENTS

In March 2020, the Director-General of the World Health Organization declared a pandemic related to the global outbreak of the new coronavirus COVID-19 and a national emergency was declared in the United States

The extent of the impact of COVID-19 on HARC's operational and financial performance will depend on developments such as the duration and spread of the outbreak, impact on donors, employees, and vendors, all of which are uncertain and cannot be predicted. Therefore, while HARC expects this matter to negatively impact its operating results and financial position, the financial impact cannot be reasonably estimated at this time.

Management has evaluated subsequent events through June 3, 2020, which is the date that the financial statements were available for issuance. As a result of this evaluation, no other events were identified that are required to be disclosed or would have a material impact on reported net assets or changes in net assets.

Note to Schedule of Expenditures of Federal Awards for the year ended December 31, 2019

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation – The schedule of expenditures of federal awards is prepared on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U. S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Federal expenditures include allowable costs funded by federal grants. Allowable costs are subject to the cost principles of the Uniform Guidance and include both costs that are capitalized and costs that are recognized as expenses in HARC's financial statements in conformity with generally accepted accounting principles. Indirect costs are reported utilizing HARC's approved indirect cost rate from the United States Department of Interior. HARC does not utilize the 10% de minimus indirect rate and does not have any subrecipients.

Because the schedule presents only a selected portion of the operations of HARC, it is not intended to and does not present the financial position, changes in net assets, or cash flows of HARC.

<u>Major programs</u> – All of HARC's programs fall within the Research and Development cluster, which as a result, is the major program.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of Directors of Houston Advanced Research Center:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Houston Advanced Research Center (HARC), which comprise the consolidated statement of financial position as of December 31, 2019 and the related consolidated statements of activities, of functional expenses, and of cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated June 3, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered HARC's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of HARC's internal control. Accordingly, we do not express an opinion on the effectiveness of HARC's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether HARC's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The

results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

Blazek & Vetterling

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of HARC's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

June 3, 2020

Independent Auditors' Report on Compliance for Each Major Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Board of Directors of Houston Advanced Research Center:

Report on Compliance for Each Major Federal Program

We have audited Houston Advanced Research Center's (HARC) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on HARC's major federal program for the year ended December 31, 2019. HARC's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for HARC's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U. S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about HARC's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of HARC's compliance.

Opinion on Each Major Federal Program

In our opinion, HARC complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2019.

Report on Internal Control Over Compliance

Management of HARC is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered HARC's internal control over compliance with the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of HARC's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
